

New EXTEK Tabletop 16/35mm Silver Duplicator Pampers Your Master Films, Lowers Labor Costs

- Extex Model 5441 utilizes the same compact design and film duplicating technology which has been proven over many years in other quality Extex family duplicators.
- Equipped with many of the same operator convenience and safety features proven in the Extex Models 5441 and 5446 units.
- Works with all types of master films, putting the least possible stress on fragile masters, even with nitrate or acetate backings!
- Duplicates common quality 16mm or 35 mm films at 150 feet per minute.
- Tabletop unit can easily be moved to different work locations
- Design simplicity and quality in manufacture account for excellent reliability enjoyed by our users.
- Convenient threading mechanism permits instant, high quality operation.
- Low maintenance requirements; most common service can be done by an operator in a matter of minutes!
- Toll-free parts and service hotline.
